Defect Log

Defect #	Description	Severity	Test Case # or Description
1	Cannot switch from Weekly View to Calendar View	1	See Set Events in Month 001
2	The arrow keys to switch between months are reversed (the ">" button goes backward and the "<" button goes forward)	2	See Set Events in Month 003
3	The "Today" button does nothing	3	While on the calendar, click "Today" -> the events of the current day should be displayed
4	The Manage Contacts dialog box does not close when clicking "Add Contact"	2	Contact 001
5	The "Confirm Changes" button must be pressed twice for the changes to submit when editing an event	3	Edit Event 001
6	The "Add event" button must be pressed twice for the changes to submit when creating an event	3	Create Event 001
7	When you create an event, and then go and make it a repeating event, it adds that event again to the day it was created. Leaving two of the same events on the same day.	2	Edit Event 007
8	Pop up does not close when changing accounts	3	Switch Database User 002
9	When you add a contact you have to switch back and forth months to make the reminder show up	2	Contacts 001
10	When creating an event, negative duration in minutes is allowed to be put in.	2	Create Event 005
11	Create an event which repeats with no end date filled results in no event being created.	2	Event Repeat 003
12	Creating an event repeating on every day except the current day with no other information filled out creates an event on the current day only.	2	Create an event leaving all information blank except the "Repeat on Days" checkboxes. Select every day to repeat the event except for the current day. This results in an event being created only on the current day.

13	Clicking on a day button in Weekly View does not open a list of the daily events	3	Attempt to click the button for a day in Weekly View.
14	Adding an Event from the bottom of the Day view closes the dialog box and adds an empty event	2	Change Notification 001 but created the event from the Day View
15	Events in daily view are listed with the latest events first	3	Open the daily view from the monthly view. Daily Events are listed with the last events first
16	Notification for event ending will happen forever once the event actually ends.	2	Have an event that is currently going on with a nonzero duration and allow for notifications for when the event ends. Pressing "ok" on the notification will cause more to appear.
17	When selected a preset event, there is no information that gets added to any of the input fields ala, "Prefills information for the event for the user." where all inputs are blank but new inputs appear.	3	Preset Homework 001
18	When selected a preset event, there is no information that gets added to any of the input fields ala, "Prefills information for the event for the user." where all inputs are blank but new inputs appear.	3	Preset Meetings 001
19	When selected a preset event, there is no information that gets added to any of the input fields ala, "Prefills information for the event for the user." where all inputs are blank but new inputs appear.	3	Preset Exams 001
20	There is no current list of all contacts added when a user clicks on manage contacts tab: "Display current list of contacts associated with the user"	2	Click on the manage contacts tab and have some contacts added. There will be no list of contacts.
21	No constant reminder of an ongoing event at all or every 15-minute interval.	2	Create an event with > 15 minutes worth of duration and select the constant reminder checkbox.
22	If a months days cause the calendar to go past 4 rows, those days are not displayed on the client.	2	Scrolls to any month where the first day of the month is later in the week and check if all 29/30/31 days are shown
23	An event can have its Notify Me time in minutes changed to be negative.	2	Event Edit 006
24	The suggestion algorithm only works for the current day. When creating an event, If an event date is entered before pressing the suggest button, the event date gets overwritten.	2	Attempting to use the suggestion algorithm on a day other than the current one is not possible

25	Create an event which lasts longer than one days. It does not appear on the following days.	2	Creating an event that is longer than one day does not appear on the following days
26	Notifications before an event occurs do not untick the notification box after triggering	2	Change Notifications 002
27	2 event ending notifications are played forever for every user and are constantly popping up.	1	The cause for this bug is unknown and began happening after some events must've ended and has been popping up since.
28	Clicking the Remove Contact Button with nothing entered closes the dialog box	3	After clicking the Remove Contact Button with nothing entered the dialog box is closed
29	Events can be created with a date in the past	2	Create Event 006. When creating an event you can set it for a date in the past
