CollegeCallendar

PREPARED FOR

CS 408 Class Project

PREPARED BY

Team 1: Riley Robertson, Jake Koontz, Walter Jacquette, Kyle Brown, Jeremy Putnam, and Eric Thiem

1.01	As a user, I want to quickly set the date, time and duration of an event (Kyle)
a.	Create Event 001, Create Valid Event, Severity 2
b.	Click Add Event -> Fill in valid info for data, time and duration -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 002, Create Valid Event by Entering Date Manually, Severity 2
b.	Click Add Event -> Fill in valid info but fill in date in the format of MM/DD/YYYY -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 003, Create Invalid Event by Entering bad date, Severity 2
b.	Click Add Event -> Fill in invalid info for date-> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar with default value of bad input
a.	Create Event 004, Create Invalid Event by Entering bad time, Severity 2
b.	Click Add Event -> Fill in invalid info for time> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar with default value of bad input
a.	Create Event 005, Create Invalid Event by Entering bad duration, Severity 2
b.	Click Add Event -> Fill in invalid info for duration> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar with default value of bad input

a.	Create Event 006, Create invalid Event, Severity 1
b.	Click Add Event ->Input invalid info for a field -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar with a default value
a.	Create Event 007, Create empty Event, Severity 1
b.	Click Add Event ->Input empty info for a field -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar with a default value

1.02	As a user, I want to be able to see set events in a given week (Jake)
a.	See Set Events in Given Week 001, Open Weekly View, Severity 2
b.	Open application -> Click weekly view
c.	Events for the current week should be displayed
a.	See Set Events in Given Week 002, Switch Weekly View to a Previous Week, Severity 2
b.	Open application -> Click weekly view -> Click '<'
c.	Events for the previous week should be displayed
a.	See Set Events in Given Week 003, Switch Weekly View to a Future Week, Severity 2
b.	Open application -> Click weekly view -> Click '>'
c.	Events for the next week should be displayed

1.03	As a user, I want to be able to see set events during a month (Jake)
a.	See Set Events in Month 001, Open Monthly View, Severity 2

b.	Open application -> Click calendar view
c.	Events for the current month should be displayed
a.	See Set Events in Month 002, See Monthly View by Default, Severity 1
b.	Open application
c.	Events for the current month should be displayed
a.	See Set Events in Month 003, Switch Monthly View to a Previous Month, Severity 2
b.	Open application -> Click calendar view -> Click '<'
c.	Events for the previous month should be displayed
a.	See Set Events in Month 004, Switch Monthly View to a Future Month, Severity 2
b.	Open application -> Click calendar view -> Click '>'
c.	Events for the next month should be displayed

1.04	As a user, I want to store classes for a semester (Unclear if finished)
a.	
b.	
c.	

1.05	As a user, I want to able to click on classes on the calendar and view additional information about them (Kyle)
a.	Open Event 001, Open Event Normal, Severity 1
b.	Click on an Event
c.	Calendar should show the modal

a.	Open Event 002, Open Day then Event Normal, Severity 2
b.	Click on a Day, then the event
c.	Calendar should show the modal

1.06	As a user, I want to see a summary of a week's assignments, commitments and free time and be able to compare this to other weeks (Incomplete)
a.	
b.	
c.	

1.07	As a user, I want to use a time sorting feature to automatically plan out my free time for completing assignments efficiently. If it is 2 or less priority give it less urgency in getting down. If it is higher increase the workload capacity for the suggested time algorithm to account for more working hours
a.	Free Time Plan 001, Ensure homework order, Severity 2
b.	Open application -> Add homeworks of different priority -> Ensure homework is displayed based on priority with lower priority assignments at the bottom
c.	Calendar should display events based on priority

1.08	As a user, I want to be able to choose the type of event I'm adding; choices such as Homework, Class, Midterm, Final (Kyle)
a.	Create Event 001, Create GENERAL Event, Severity 2
b.	Click Add Event -> Fill in valid info for all event information and make the event a GENERAL -> Click Add Event button

c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 002, Create HOMEWORK Event, Severity 2
b.	Click Add Event -> Fill in valid info for all event information and make the event a HOMEWORK -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 003, Create CLASS Event, Severity 2
b.	Click Add Event -> Fill in valid info for all event information and make the event a CLASS -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 004, Create EXAM Event, Severity 2
b.	Click Add Event -> Fill in valid info for all event information and make the event a EXAM -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar
a.	Create Event 005, Create MEETING Event, Severity 2
b.	Click Add Event -> Fill in valid info for all event information and make the event a MEETING -> Click Add Event button
c.	Calendar should hide the modal and save the event on the calendar

1.09	As a user, I want to be able to edit information for events I created previously. (Kyle)
a.	Edit Event 001, Edit Event Name, Severity 2
b.	Click on Event -> Change Name of Event -> Click Confirm Changes Button
c.	Calendar should hide the modal and save the event on the calendar with new name

a.	Edit Event 002, Edit Event Date, Severity 2
b.	Click on Event -> Change Date of Event -> Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Date
a.	Edit Event 003, Edit Event Time, Severity 2
b.	Click on Event -> Change Time of Event ->Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Time
a.	Edit Event 004, Edit Event Duration, Severity 2
b.	Click on Event -> Change Duration of Event -> Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Duration
a.	Edit Event 005, Edit Event Priority, Severity 2
b.	Click on Event -> Change Priority of Event ->Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Priority
a.	Edit Event 006, Edit Event Notify, Severity 2
b.	Click on Event -> Change Notify of Event -> Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Notify
a.	Edit Event 007, Edit Event Repeat, Severity 2
b.	Click on Event -> Change Repeat of Event ->Click Confirm Changes Butto
c.	Calendar should hide the modal and save the event on the calendar with new Repeat
a.	Edit Event 008, Edit Event NotifyWhenOver, Severity 2
b.	Click on Event -> Change NotifyWhenOver of Event -> Click Confirm Changes Button
c.	Calendar should hide the modal and save the event on the calendar with new NotifyWhenOver

a.	Edit Event 009, Edit Event Constant Reminder, Severity 2
b.	Click on Event -> Change Constant Reminder of Event -> Click Confirm Changes Button
c.	Calendar should hide the modal and save the event on the calendar with new Constant Reminder

1.10	As a user, I want to be able to delete events I created previously. (Kyle)
a.	Delete Event 001, Delete GENERAL Event, Severity 2
b.	Click on Event -> Click Delete Button
c.	Calendar should hide the modal and delete event from the calendar
a.	Delete Event 002, Delete HOMEWORK Event, Severity 2
b.	Click on Event -> Click Delete Button
c.	Calendar should hide the modal and delete event from the calendar
a.	Delete Event 003, Delete CLASS Event, Severity 2
b.	Click on Event -> Click Delete Button
c.	Calendar should hide the modal and delete event from the calendar
a.	Delete Event 004, Delete EXAM Event, Severity 2
b.	Click on Event -> Click Delete Button
c.	Calendar should hide the modal and delete event from the calendar
a.	Delete Event 005, Delete MEETING Event, Severity 2
b.	Click on Event -> Click Delete Button
c.	Calendar should hide the modal and delete event from the calendar

1.11	As a user, I want to specify different priority levels for different events (Kyle)
a.	Priority of Event 001, Valid Priority, Severity 2
b.	Click add Event -> Enter 2 for priority -> Click add Event Button
c.	Calendar should hide the modal and add the even to the calendar with 2 priority
a.	Priority of Event 002, Invalid Priority, Severity 2
b.	Click add Event -> Enter "abc" for priority -> Click add Event Button
c.	Calendar should hide the modal and add the even to the calendar with 0 priority
a.	Priority of Event 003, Large Priority, Severity 2
b.	Click add Event -> Enter 150 for priority -> Click add Event Button
c.	Calendar should hide the modal and add the even to the calendar with 150 priority
a.	Priority of Event 004, Negative Priority, Severity 2
b.	Click add Event -> Enter -50 for priority -> Click add Event Button
c.	Calendar should hide the modal and add the even to the calendar with -50 priority or default

1.12	As a user, I want to specify whether an event repeats, and how often it should repeat (Jeremy)
a.	Event Repeat 001, No Repeat, Severity 2
b.	Create an Event -> Do not click the repeat button-> Add Event
c.	Event should only be available on the chosen day

a.	Event Repeat 002, Repeat Every Day, Severity 2
b.	Create an Event -> Select the repeat button for every day for a week-> Add Event
c.	Event should be available every day
a.	Event Repeat 003, Repeat Weekend, Severity 2
b.	Create an Event -> Select the repeat button for just the weekends for a week-> Add Event
c.	Event should be available on the weekends
a.	Event Repeat 004, Repeat Whole Month, Severity 2
b.	Create an Event -> Select the repeat button for every day for a week for a whole month-> Add Event
c.	Event should be available every day in that month

1.13	As a developer, I would like to edit the events details in the database. (Riley)
a.	Event Edit 01, Event Name, Severity 2
b.	Click Event -> Change Name -> Confirm Changes
c.	Event Name should change appropriately
a.	Event Edit 02, Event Date, Severity 2
b.	Click Event -> Change Date-> Confirm Changes
c.	Event Date should change appropriately
a.	Event Edit 03, Event Time, Severity 2
b.	Click Event -> Change Time-> Confirm Changes
c.	Event Time should change appropriately

a.	Event Edit 04, Event Duration, Severity 2
b.	Click Event -> Change Duration-> Confirm Changes
c.	Event Duration should change appropriately
a.	Event Edit 05, Event Priority, Severity 2
b.	Click Event -> Change Priority-> Confirm Changes
c.	Event Priority should change appropriately
a.	Event Edit 06, Event Notify Me, Severity 2
b.	Click Event -> Change Notify Me-> Confirm Changes
c.	Event Notify Me should change appropriately
a.	Event Edit 07, Event Repeat, Severity 2
b.	Click Event -> Change Repeat> Confirm Changes
c.	Event Repeat should change appropriately
a.	Event Edit 08, Event NotifyWhenEvenOver, Severity 2
b.	Click Event -> Change NotifyWhenEvenOver-> Confirm Changes
c.	Event NotifyWhenEvenOver should change appropriately
a.	Event Edit 09, Event ConstantReminderDuringEvent, Severity 2
b.	Click Event -> Change ConstantReminderDuringEvent-> Confirm Changes
c.	Event ConstantReminderDuringEvent should change appropriately
a.	Event Edit 10, Event Type, Severity 2
b.	Click Event -> Change Type-> Confirm Changes

c.	Event Type should change appropriately
a.	Event Edit 11, Event Time Invalid, Severity 2
b.	Click Event -> Change Time to non-number-> Confirm Changes
c.	Event Time should not change appropriately
a.	Event Edit 12, Event Duration Invalid, Severity 2
b.	Click Event -> Change Duration to non-number-> Confirm Changes
c.	Event Duration should not change appropriately
a.	Event Edit 13, Event Priority Invalid, Severity 2
b.	Click Event -> Change Priority to non-number-> Confirm Changes
c.	Event Priority should not change appropriately

1.14	As a user, I would like to assign a color to an event upon creation. (Incomplete)
a.	
b.	
c.	

1.15	As a user, I want to add in due dates for homework (Jeremy)
a.	Homework Due 001, No Due Date, Severity 2
b.	Create an Event -> Do not enter a due date-> Add Event

c.	Homework should be due today
a.	Homework Due 002, Future Due Date, Severity 2
b.	Create an Event -> Enter a due date in the future-> Add Event
c.	Homework should be due in the future
a.	Homework Due 003, Past Due Date, Severity 2
b.	Create an Event -> Enter a due date in the past -> Add Event
c.	Homework should be due in the past
a.	Homework Due 004, Present Due Date, Severity 2
b.	Create an Event -> Enter a due date today-> Add Event
c.	Homework should be due today

1.16	As a user, I want to be given a recommendation on which homework to work on based on Priority Algorithm (due date, priority, and time availability)
a.	Homework Recommendation 001, Checking ordering, Severity 2
b.	Open the application -> Add homework assignments with different due dates and priorities -> check to ensure the calendar gives recommendation on which to work on at what times
c.	Calendar should display homework assignments and give a recommendation based on homework's data

1.17	As a user, I want to mark a homework as completed (Kyle)
a.	Mark Homework Complete 001, Switching to Completed, Severity 2

b.	Click add Event -> Make HW Not completed -> Click add Event Button -> Open Event and Click completed
c.	Calendar should hide the modal and add the even to the calendar with the homework indicating completed
a.	Mark Homework Complete 001, Switching to Uncompleted, Severity 2
b.	Click add Event -> Make HW Completed -> Click add Event Button -> Open Event and Click uncompleted
c.	Calendar should hide the modal and add the even to the calendar with the homework indicating uncompleted

1.18	As a developer, I want to create a priority algorithm to help users schedule their time.
a.	Priority Algorithm 001, Checking ordering, Severity 1
b.	Open the application -> Check to ensure schedule is organized by priority
c.	Calendar should order events by their priority

1.20	As a user, I would like to be notified when an event is about to happen. (Jeremy)
a.	Change Notifications 001, Generic Event Notifications, Severity 2
b.	Click add Event -> Make Generic event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 002, HW Event Notifications, Severity 2
b.	Click add Event -> Make homework event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event

a.	Change Notifications 003, Class Event Notifications, Severity 2
b.	Click add Event -> Make class event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 004, Exam Event Notifications, Severity 2
b.	Click add Event -> Make exam event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 005, Meeting Event Notifications, Severity 2
b.	Click add Event -> Make meeting event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event

1.21	As a user, I would like to change the time I get notifications for events. (Jeremy)
a.	Change Notifications 001, Generic Event Notifications, Severity 2
b.	Click add Event -> Make Generic event with notifications on -> Click the event on the calendar to open its settings -> Change the time for notifications and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 002, HW Event Notifications, Severity 2
b.	Click add Event -> Make homework event with notifications on -> Click the event on the calendar to open its settings -> Change the time for notifications and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 003, Class Event Notifications, Severity 2

b.	Click add Event -> Make class event with notifications on -> Click the event on the calendar to open its settings -> Change the time for notifications and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 004, Exam Event Notifications, Severity 2
b.	Click add Event -> Make exam event with notifications on -> Click the event on the calendar to open its settings -> Change the time for notifications and click confirm changes
c.	The event should no longer give notifications for an event
a.	Change Notifications 005, Meeting Event Notifications, Severity 2
b.	Click add Event -> Make meeting event with notifications on -> Click the event on the calendar to open its settings -> Change the time for notifications and click confirm changes
c.	The event should no longer give notifications for an event

1.22	As a user, I would like to know when my allotted time for an event is up.
a.	Time Up 001, Time is Up!, Severity 2
b.	Click Add Event -> Set End Time to near future -> Wait
c.	When time is up for the event, user should be notified that their allotted time for that event is up

1.23	As a user, I would like to disable notifications for an event Jeremy
a.	Disable Notifications 001, Generic Event Notifications, Severity 2
b.	Click add Event -> Make Generic event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event

a.	Disable Notifications 002, HW Event Notifications, Severity 2
b.	Click add Event -> Make homework event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Disable Notifications 003, Class Event Notifications, Severity 2
b.	Click add Event -> Make class event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Disable Notifications 004, Exam Event Notifications, Severity 2
b.	Click add Event -> Make exam event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event
a.	Disable Notifications 005, Meeting Event Notifications, Severity 2
b.	Click add Event -> Make meeting event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for an event

1.24	As a user, I would like to disable notifications for all events in a series. Jeremy
a.	Disable Series Notifications 001, Generic Series Notifications, Severity 2
b.	Click add Event -> Make Generic event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for each event
a.	Disable Series Notifications 002, HW Series Notifications, Severity 2

b.	Click add Event -> Make homework event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for each event
a.	Disable Series Notifications 003, Class Series Notifications, Severity 2
b.	Click add Event -> Make class event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for each event
a.	Disable Series Notifications 004, Exam Series Notifications, Severity 2
b.	Click add Event -> Make exam event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for each event
a.	Disable Series Notifications 005, Meeting Series Notifications, Severity 2
b.	Click add Event -> Make meeting event with notifications on -> Click the event on the calendar to open its settings -> Deselect the notification button and click confirm changes
c.	The event should no longer give notifications for each event

1.25	As a user, I would like to opt-in to constant reminders to remind me what I should be doing. (Jeremy)
a.	Enable Constant Notifications 001, Generic Notifications Opt-in, Severity 2
b.	Click add Event -> Make Generic event with opt-in notifications on -> Select the constant notification button and click confirm changes
c.	The event should give notifications every 15 minutes in the event
a.	Enable Constant Notifications 002, HW Notifications Opt-in, Severity 2
b.	Click add Event -> Make HW event with opt-in notifications on -> Select the constant notification button and click confirm changes

c.	The event should give notifications every 15 minutes in the event
a.	Enable Constant Notifications 003, Class Notifications Opt-in, Severity 2
b.	Click add Event -> Make Class event with opt-in notifications on -> Select the constant notification button and click confirm changes
c.	The event should give notifications every 15 minutes in the event
a.	Enable Constant Notifications 004, Exam Notifications Opt-in, Severity 2
b.	Click add Event -> Make Exam event with opt-in notifications on -> Select the constant notification button and click confirm changes
c.	The event should give notifications every 15 minutes in the event
a.	Enable Constant Notifications 005, Meeting Notifications Opt-in, Severity 2
b.	Click add Event -> Make Meeting event with opt-in notifications on -> Select the constant notification button and click confirm changes
c.	The event should give notifications every 15 minutes in the event

1.26	As a developer, I would like to store the users notification settings in a database. (Riley)
a.	Store Notifications 001, Notifications Storage, Severity 2
b.	Click Event -> Change any notification setting -> Click Confirm Changes
c.	Appropriate setting should retain appropriate value

1.27	As a developer, I would like the application to have different preset event creations that have different preset defaults. I.e. class, homework, studying, exams (Jake)
a.	Choose Preset 001, Homework Preset, Severity 2

b.	Click Add Event -> Select homework for event type
c.	Preset values for homework should be displayed
a.	Choose Preset 002, Class Preset, Severity 2
b.	Click Add Event -> Select class for event type
c.	Preset values for a class should be displayed
a.	Choose Preset 003, Exam Preset, Severity 2
b.	Click Add Event -> Select exam for event type
c.	Preset values for an exam should be displayed
a.	Choose Preset 004, Meeting Preset, Severity 2
b.	Click Add Event -> Select meeting for event type
c.	Preset values for a meeting should be displayed

1.28	As a user, I would like to schedule my class for the semester with a recurring event by only going through one creation cycle. (Riley)
a.	Repeat Class 001, MWF Class Creation, Severity 2
b.	Click Add Event -> Select Type as Class and Repeat for MWF-> Click Add Event
c.	Class should appear on appropriate days of the week at correct times

1.29	As a user, I would like to have a preset event for homework Walter
a.	Preset Homework 001, Preset Homework Event, Severity 2

b.	Click on Add Event -> Click on Event Type -> Click on HOMEWORK
c.	Event details should have preset values displayed.

1.30	As a user, I would like to have a preset event for meetings. Walter
a.	Preset Meetings 001, Preset Meetings Event, Severity 2
b.	Click on Add Event -> Click on Event Type -> Click on MEETING
c.	Event details should have preset values displayed.

1.31	As a user, I would like to have a preset event for finals/exams. Walter
a.	Preset Exams001, Preset Exams Event, Severity 2
b.	Click on Add Event -> Click on Event Type -> Click on EXAM
c.	Event details should have preset values displayed.

1.32	As a user, I would like to store a directory of contacts in the app. Walter
a.	Contacts 001, Add Contact, Severity 2
b.	Click on Manage Contacts -> Type in Contact name -> Click on Add Contact
c.	There should be an event in the next two weeks for that contact on the calendar.
a.	Contacts 002, Remove Contact, Severity 2
b.	Click on Manage Contacts -> Type in Contact name -> Click on Remove Contact
c.	Any events associated with the contact should be removed from the calendar.

1.33	As a user, I would like to have random reminders scheduled every few weeks. Reminding me to call contacts from a directory of contacts. Walter
a.	Contact Reminders 001, View Contact Reminders, Severity 2
b.	Have contacts already in the directory (Or add contacts) -> View calendar
c.	The contacts should have random reminders associated for each within two weeks.

1.34	As a developer, I would like to store the user's classes and events in a database. (Riley)
a.	Store Events 001, Class Creation, Severity 2
b.	Click Add Event -> Select Type as Class fill out other fields-> Click Add Event
c.	Class should appear on the calendar
a.	Store Events 001, Event Creation, Severity 2
b.	Click Add Event -> Select Type as Generic fill out other fields-> Click Add Event
c.	Event should appear on the calendar

1.35	As a user, I would like to choose the color scheme for my calendar. (Incomplete)
a.	
b.	
c.	

1.36	As a user, I would like to see all my events laid out in a per month calendar grid format (Jake)
a.	View All Events 001, View Calendar with Events, Severity 1
b.	Open application -> click calendar view
c.	All events should be laid out in a per month calendar grid format
a.	View All Events 002, View Calendar with No Events, Severity 2
b.	Open application -> click calendar view
c.	An empty calendar grid should be displayed

1.37	As a user, I should be able to look ahead at the rest of the semester's events (Riley)
a.	View Events 001, Navigate Calendar, Severity 2
b.	Click < and > buttons to navigate the calendar in the appropriate directions
c.	Calendar should change months/weeks accordingly and display existing events

1.38	As a user, I should be able to see all my events displayed in a weekly calendar grid format. Walter
a.	Weekly Calendar 001, View Weekly Calendar, Severity 1
b.	Have events already on calendar -> Click Calendar View Dropdown -> Click Weekly View -> weekly calendar displays
c.	The weekly view should have all the events displayed in a new format for only this week.
a.	Weekly Calendar 002, Add to Weekly Calendar, Severity 1

b.	Click on Weekly View -> Click on Add Event -> Fill out info having the event be the current week and add event.
c.	The new event should display on the weekly view.
a.	Weekly Calendar 003, Move Forward a week Weekly Calendar, Severity 1
b.	Click on Weekly View -> Click on '>'
c.	Weekly calendar should transition to the next week.
a.	Weekly Calendar 004, Move Backward a week Weekly Calendar, Severity 1
b.	Click on Weekly View -> Click on '<'
c.	Weekly calendar should transition to the previous week.

1.39	As a user, I would like to click on a calendar day and have that day's events displayed on screen (Jake)
a.	View events 001, View Day with Events from Calendar View, Severity 2
b.	Click on a calendar day with an event
c.	Window should appear with the day's events on the screen
a.	View events 002, View Day with No Events from Calendar View, Severity 2
b.	Click on a calendar day with no event
c.	Window should appear with a message saying there are no events for that day
a.	View events 003, View Day with Events from Weekly View, Severity 2
b.	Switch to weekly view -> Click on a calendar day with an event
c.	Window should appear with the day's events on the screen

a.	View events 004, View Day with No Events from Weekly View, Severity 2
b.	Switch to weekly view -> Click on a calendar day with no event
c.	Window should appear with a message saying there are no events for that day

1.40	As a user, I would like to have a deleted event cease to appear on the any form of calendar display. Walter
a.	Remove event 001, Remove generic Event, Severity 1
b.	Click on generic event to delete -> click delete event
c.	The event should be deleted from both Calendar and weekly view
a.	Remove event 002, Remove HomeworkEvent, Severity 1
b.	Click on homework event to delete -> click delete event
c.	The event should be deleted from both Calendar and weekly view
a.	Remove event 003, Remove Class Event, Severity 1
b.	Click on class event to delete -> click delete event
c.	The event should be deleted from both Calendar and weekly view
a.	Remove event 004, Remove Exam Event, Severity 1
b.	Click on exam event to delete -> click delete event
c.	The event should be deleted from both Calendar and weekly view
a.	Remove event 005, Remove Meeting Event, Severity 1
b.	Click on meeting event to delete -> click delete event
c.	The event should be deleted from both Calendar and weekly view
